Non-Personal Information

Your use of the Website indicates Your consent to our collection of non-personal information about You. We collect this information through the use of cookies, web beacons, or log files. A cookie is a small text file that is stored on your hard drive for record keeping purposes. A web beacon is a small invisible GIF file, usually embedded in the website that helps track the online movements of Users. We also gather information in our log files, as do most web sites. This information includes Internet protocol (“IP”) addresses, browser types, referring pages and other information. The information in the log files is aggregated and does not identify individual Users.

We use the information collected through cookies, web beacons and log files to understand how our Users navigate our Website, and to determine common traffic patterns. We may use this information to improve the Website, to make Website navigation recommendations and to help redesign the Website in order to make Your experience on the Website more efficient and enjoyable. You also have choices with respect to cookies. By changing Your internet browser settings, You have the choice to accept all cookies, to be notified when a cookie is set or to reject all cookies.

GMMI does not share Protected Health Information of Users with nonaffiliated third parties unless doing so is appropriate to carry out a User’s request or GMMI reasonably believes that doing so is legally required, facilitates GMMI’s operations or is in GMMI’s interest to protect its property or other legal rights or the rights or property of others, in any case only as permitted by law.
